Re: GN Docket No. 15-319

Dear Ms. Dortch:

CommScope submits the attached report on our Initial Commercial Deployment (ICD) testing results. The results indicate that over the ICD) testing period from September 18, 2019 to October 31, 2019, the CommScope Spectrum Access System (SAS) demonstrated full Citizens Broadband Radio Service (CBRS) compliance.

CommScope requests confidential treatment of our ICD report as it contains highly sensitive and proprietary information.

A redacted version of the update is being filed electronically through the Commission's Electronic Comment Filing System. In addition, one copy of the confidential version of the notice is being delivered to the Office of the Secretary. Electronic versions (e-mail) of the proposal are being sent to Paul Powell, Navid Golshahi and Kamran Etemad of the Wireless Telecommunications Bureau and Julius Knapp of the Office of Engineering and Technology.

Please feel free to contact me if you should have any questions or if you require any additional information.

Respectfully Submitted,

/s/ H. Mark Gibson
